- **Joint Master Degree** (*as partners in a consortium*)

### Key Action 2

- **Capacity Building in Higher Education** (*as direct applicant or partner*)
- **Strategic Partnerships** (*as partners in a consortium*)
- **Knowledge Alliances** (*as partners in a consortium*)

### Key Action 3

- **Higher Education Reform Experts (HEREs)**

### Specific Action

- **Jean Monnet** (*as direct applicant*)

## KA1 – International Credit Mobility – ICM (KA107)

*International Credit Mobility* can be defined as a limited period of study or traineeship abroad (in the framework of on-going studies at a home institution) for the purpose of gaining credits (ECTS).

### How does it work?

**Students and doctoral candidates** are able to study abroad for a period of 3 months (or one academic term or trimester), up to a maximum of 12 months in each study cycle and may benefit from an Erasmus+ grant. As from mid-2018, traineeships within a company are also possible, for 2 to 12 months.

**Staff** can spend a teaching and/or training period abroad from 5 days (excluding travel) to a maximum of 2 months and may also benefit from a grant. The grant for staff may provide funding for two additional days of travel (one before and one after the mobility).

## KA2 - Capacity Building in the Field of Higher Education - CBHE

Higher education institutions can take part in collaborative, capacity-building partnerships. These projects are set up and managed by a group of higher education institutions from 34 European countries on the one hand, and partner countries (including the Republic of Moldova) on the other.

Since 2015 the universities from the Republic of Moldova have been involved in 21 CBHE Projects:

**There are 2 types of capacity building in higher education projects:**

### Joint projects

- aimed at organisations to help improve curriculums, governance, and the strengthening of relations between higher education systems

### Structural projects

- aimed at promoting reforms in higher education systems, modernising policies, governance and strengthening relations between higher education systems and the wider economic and social environment

## Educational for Drone - eDRONE

574090-EPP-1-2016-1-ITEPPKA2-CBHE-JP

***Project type: Regional, Joint Project***

***Budget: 995.412,00 Euro***

### ***Wider Objective***

The main objective of the eDrone project is to define a learning environment to deliver more opportunities to access new competences related to the drone activities and jobs. These new competences refer in particular to the use of advanced ICT solutions for the drone technologies that may go a long way towards the goals and priorities in terms of optimization of the development of ICT. Another important objective of the eDrone project is also to provide higher education institutions in the Partner Countries with effective and efficient instruments to setup Offices for Education for Drones (OED), for the transferring of all the above-mentioned knowledge to professionals of each Partner Country.

### ***Specific objectives***

eDrone is motivated to solve some uncovered issues in the educational and professional system of the Partner Countries such as the lack of availability of an Educational Programme covering the use of drone in several application fields especially for professional activities and of one stable institution for the management of the new knowledge, methodologies and technologies in each Partner Country. The specific objectives of eDrone proposal are to:

- produce a systemic impact on training provision in order to foster its relevance for the above described activities.
- overcome the skills mismatches and shortages in the defined sectors.
